

Graphene Canada 2015 International Conference & Exhibition

The Graphene & 2D materials meeting point in North America

Madrid (Spain): May 21, 2015

Montreal (Canada) to host the 1st edition of **Graphene & 2D Materials Canada 2015** International Conference & Exhibition (www.graphenecanada2015.com) from the 14th to the 16th of October 2015.

The event is launched following the success of the last 5 editions of Graphene Conference in Europe (www.grapheneconf.com) and the lack of meetings in the field in Canada.

The **Graphene & 2D Materials Conference** will be a 3 days event meant to gather the key players of the graphene Community. The event aims to attract global participant's, intent on sharing, exchanging and exploring new avenues of graphene-related scientific and commercial developments.

The scientific research must work together with industry to ensure development progress that could open the way to graphene commercialization.

Graphene & 2D Materials Canada 2015 will feature:

- A **plenary session** with internationally renowned speakers
- An **industrial forum** with focus on **Graphene Commercialization** (graphene Investment, Applications, Commercialization and Manufacturing) with the spotlight on Energy, Applications, Production and Worldwide Initiatives & Priorities
- Extensive **thematic workshops** in parallel (Standardization, Materials & Devices Characterization, Bio & Health and Electronic Devices)
- An important **exhibition** carried out with the latest graphene trends
- **B2B meetings** will be one of the features of the event

Upcoming deadlines:

Abstract submission (oral contribution): July 13, 2015

Student grant request: July 13, 2015

At this stage, 19 keynote & invited speakers are already confirmed (www.graphenecanada2015.com/GC/speakers.php) and further will be announced the upcoming days.

Graphene Canada 2015 is already supported by Canada's leading graphene applications developer, Grafoid Inc. and Tourisme Montreal.
